### Experience at ORGANISATION

I am involved in the RAIDs project as an immunohistochemistry and HPV typing expert.

### Research topics

Cervical cancer; HPV typing; FISH; (quadruple)immunohistochemical staining; Immunology.

### Highlights of involvement in RAIDs

I am supervising the HPV typing of the patients included. Performing and supervising the work on deciphering the involvement of the microenvironment in cervical cancer by quadruple/fluorescent-immunohistochemistry and confocal microscopy

### Education

- **Masters degree:** Molecular and Cellular Biology, October 1997, Vrije Universiteit, Amsterdam, The Netherlands.
- **PhD Thesis:** Somatic Alterations of Chromosome 6p21 and HLA Protein Expression in B-cell Lymphoma. February 1999-February 2003 Supervisors: Dr. E. Schuuring, Prof. Dr. Ph. Kluin, Department of Pathology, Leiden University Medical Center, Leiden, The Netherlands.

### Publications & Awards

63 publications.

### Hobbies, Interested in

**Nationality:** Dutch

**Languages:** Dutch, English, Russian, Bulgarian
